

We charge Milchprüfring (MPR) Bayern e.V. with the testing of the above milk sample.

- Biosensor-Testing (15 substances), 81,80 € plus VAT per sample
- Complete check for antibiotics (Biosensor, microbiological inhibitor test BRT and different receptor test systems where applicable), 144,50 € plus VAT per sample
- When indicated, additional testing with Biosensor to define concentration in reference to MRL, if the detected concentration of the antibiotic(s) is (are) not in the detection range of the Biosensor, 24,15 € plus VAT per sample

We have read the details on page 3 and know that the Biosensor used is in the process of validation. AiM GmbH is forwarding the report and invoice on behalf of MPR Bayern e.V.

Details for the testing of milk samples with the Biosensor

Sampling

- In line with GLP.
- Mark the sample clearly (bar code label preferred) and document it on the form (page 1, sample ID, customer).
- Deep-freeze the sample.
- Minimum sample volume: 20 ml.
- The sample container must be unbreakable and tightly sealable.

Shipping of sample

- Fill in the form (page 1-2) completely and attach it to the package.
- Make your choice, if you wish only Biosensor-Testing or complete check for antibiotics.
- Make your choice, if you wish additional testing with Biosensor to define concentration in reference to MRL, when indicated.
- If you are sending multiple samples, fill in a separate form for each sample.
- Inform AiM of the dispatch date:
phone. +49 89 5307512-0, email: info@aim-bayern.de
- Send the sample cooled (insulating box and ice packs) via express courier to:
MPR Bayern e.V.,
Bereich Hemmstoffe
Hochstatt 2
85283 Wolnzach

Sample testing, results

- The samples are tested at MPR Bayern e.V. according to your order using the Biosensor, microbiological tests (BRT Inhibitor Test) and, where applicable, with rapid tests (receptor tests).
- MPR Bayern e.V. has authorised AiM GmbH to forward the results to the customer.
- The Biosensor is in the process of validation; in this respect the results are not guaranteed.

Charges and invoice

- The sample fee is chargeable to the customer even if it was not possible to identify and/or quantify the substance with the Biosensor. A results report is always provided.
- MPR Bayern e.V. has authorised AiM GmbH to issue invoices on its behalf.

For further information concerning sampling, shipping of samples, results or invoices, please call or e-mail us.
